BULL'S HEAD

Our ginger ale started out in 1896, created by John Henry Bryant. Inspired by his Irish roots and through much trial and error, he created a rich, Belfast-type ginger ale with an original flavour.

His wife, inspired by her husband's stubbornness, suggested he call the drink Bull's Head and the name stuck.

ICELANDIC WATER

ICELANDIC GLACIAL

ICELANDIC Glacial is the Super-Premium Natural Spring Water from Iceland's legendary Ölfus Spring. Naturally balanced, environmentally kind, exceptionally pure. Home to glaciers, spouting geysers, volcanoes and raging rivers, Iceland is one of the world's cleanest ecosystems. The water is slowly and naturally filtered through layers of volcanic rock, thereby producing a natural spring water so pure that nothing is added or taken away.

REMEDY DRINKS

OH, CANADA! With all the gut loving goodness going on in Australia, it was only natural that Emmet's brother Dan and his Canadian wife, Lisa, decided to bring Remedy to the Great White North. In early 2019 they did just that and now Canucks from the streets of Vieux-Montréal to the ski hills of the Rocky Mountains are downing Remedy's drinks and realizing that healthy AND tasty, no sugar naturally, raw, live cultured drinks are possible.

EBY MANOR

Guernsey cow milk is naturally higher in Beta-Carotene, Omega 3, calcium and A2 protein (the lesser known A protein), so the cows don't need specially formulated feed to achieve these nutritional benefits. It's pure and wholesome…naturally.

These natural advantages simply create the creamiest, best tasting and nutritious dairy product we have ever tasted.

HARMONY ORGANICS

All Harmony Organic farms are certified organic and exceed the required organic standards set forth by the Canadian Government. For a farm to obtain organic certification no synthetic fertilizers or chemicals are to be used on the farm for at least three years prior to certification.

After this time the cows must only be fed organic feed for another twelve months before their milk can be marketed as organic.

REAL POPS

What if we could create natural and minimally processed products that didn't compromise on flavour? It would require extra effort – like sourcing only fresh, whole ingredients and locking in nutrients with flash freezing – but the payoff would be worth it.

Real Pops are a favourite among anyone in on the secret that healthy can be tasty.

GREEN MEADOW SMALL FLOCK

Our Small Flock's Delight Eggs come from 100-500 hens that roam freely on small family farms in Aylmer Ontario. The hens chose sun or shade (from mobile hen shelters) as they please.

The hens receive GMO free feed, consisting mostly of oats, barley, and wheat, from farms transitioning to organic. Brown Eggs from Hens on Green Grass!

NONA VEGAN FOODS

NO DAIRY, NO GLUTEN, NO-NA!

Our rich + creamy sauces are full of love and also cashews. It's a kitchen collision between a kooky, Italian mama and a modern vegan diet: An old family recipe with a taste for today. They are very versatile and taste great over noodles, veggies, proteins and snackers! Breakfast, lunch, or dinner, NONA makes all your meals timeless.

THE STORY

Kailey, the founder and "Sauce Boss" of NONA began the company in 2013, as an ode to her late Italian mama. Her mom was from Italy, and was making cashew cheese sauce back in the 70s... before cashew cheese was cool! After losing her mom, Kailey turned to the kitchen, where some of their best memories together were made. This heart-powered business is excited to be nourishing people with good food!

CHILLING IN THE FRIDGE

Mama didn't use preservatives ... so neither do we! Our sauces are refrigerated, but have a 6 month shelf-life from when we produce.

LEVEL GROUND, SNACKS

Our mission is to trade fairly and directly with small-scale producers in developing countries, and to market their products in North America, offering our customers ethical consumer choices. Since 1997, we've been all about connection.

It started with small-scale coffee farmers in Colombia, and it's grown to a community of like-minded people connected by the belief that our choices matter.

PAQUI

In a world filled with “flamin’ hot” options packed with artificial ingredients, Paqui dares to be different. We believe that real heat comes from real peppers and shouldn’t be grown in a lab. From the tangy tomatillos in our Zesty Salsa Verde chips to the freakin’ hot bhut jolokia peppers, better known as ghost peppers, in our Haunted Ghost Pepper chips, we’ve got spice for everyone. As creators of the One Chip Challenge – made from real Carolina Reaper peppers – heat is what we do best.
